

Q1 Map: Who do you go to most often when you need information to get your work accomplished?

Nodes:

- Green: Department Manager
- Purple: Project Management Group
- Blue: Design Group
- Red: Build Group
- Yellow: Implementation Group

12, and 37 appear the most central in the network, and connected to all four functions

Design Manager (6) appears central in the design function

Other functions appear to have more diverse internal connection; sign of collaboration

Integration between implementation and build departments

Design and Project Management departments are clustered at the edge; more in silo

20

The most central people in each function are not connected to each other (6,12 , 18, 25)

Lack of many two-way ties is a sign of a traditional work structure
